PROFILE

Versatile WordPress Developer and Backend Engineer with proven experience building high-quality websites, e-learning platforms, and e-commerce stores. Specializing in Elementor and Divi page building, LearnDash LMS configuration and customization, and Wix e-commerce development. Also skilled in Python/Django backend development, RESTful API design, and third-party integrations. Delivers clean, responsive, client-ready solutions on time whether it's a landing page, a full online course platform, or a custom API.

WORK EXPERIENCE

Web Developer & LearnDash LMS Developer

Florida University South East | Remote | Aug *2025 – Present*

- Built and customized a LearnDash-powered LMS on WordPress, creating course structures, lessons, quizzes, and drip content schedules.
- Designed visually polished course pages and landing pages using Elementor, ensuring full mobile responsiveness.
- Integrated WooCommerce for course enrollment payments and configured membership access rules via LearnDash groups.
- Connected third-party tools including email marketing platforms, video hosting (Vimeo/YouTube), and analytics plugins.
- Collaborated with instructional designers to translate course content into structured, engaging e-learning experiences.
- Performed site speed optimization, plugin conflict resolution, and regular maintenance and security hardening.

IT Officer Intern

Kombolcha City Administration IT Office | Kombolcha, Ethiopia | Oct *2020 – Jan 2021*

- Developed a web-based school management system using PHP, HTML, and CSS (student registration, grade tracking).
- Diagnosed and resolved hardware/software issues; configured routers, switches, and LAN connections.
- Gathered user requirements, designed responsive interfaces, and supported deployment and staff training.

EDUCATION

MSc in Software Engineering

Bahir Dar University | *Bahir Dar, Ethiopia* | *Oct 2017 – Sep 2021*

BSc in Information Technology

Bahir Dar University | *Bahir Dar, Ethiopia* | *Nov 2022 – Jul 2023*

Master Class for Teaching Online (Open edX)

Arizona State University (Online) | *Sep 2022 – Nov 2024*

PROJECTS

E-Commerce Store — *Wix*

- Built a complete e-commerce storefront on Wix including product catalog, cart, checkout, and order management.
- Customized the store layout and branding using Wix Editor, ensuring a professional and mobile-friendly design.
- Configured Wix Payments and third-party payment options, shipping rules, and tax settings.
- Set up automated order confirmation emails and managed product inventory through the Wix dashboard.
- Performed thorough QA testing across the full purchase flow on desktop and mobile devices.

LearnDash LMS Platform — *WordPress, LearnDash, DIVI, WooCommerce*

- Designed and built a multi-course LMS platform for a university using WordPress and LearnDash.
- Created custom course pages, lesson layouts, and quiz templates using Divi's visual builder, including custom modules and dynamic styling.
- Configured course access, student enrollment, progress tracking, and certificate generation in LearnDash.
- Integrated WooCommerce for paid course enrollment and set up membership tiers with conditional access.
- Optimized page load speed and ensured WCAG accessibility compliance across all course pages.

Business Website – Elementor & Divi — *WordPress, Elementor, Divi Theme Builder*

- Developed responsive multi-page business websites using Elementor and Divi, including custom headers, footers, and dynamic templates.
- Built reusable section templates and global styles to ensure design consistency across the site.
- Integrated contact forms (WPForms/Contact Form 7), Google Maps, and social media feeds.
- Configured SEO settings using Yoast SEO and optimized images and caching for performance.
- Delivered pixel-perfect layouts matching client-provided mockups and brand guidelines.

RESTful API – Modalfit Italia E-Commerce — *Django REST Framework, JWT, PostgreSQL, Postman*

- Developed RESTful APIs for product catalog, cart, order management, and user authentication.
- Secured endpoints with JWT authentication; implemented pagination, filtering, and search.
- Tested and documented APIs using Postman and OpenAPI/Swagger.

Chat Application – Backend — *Django Channels, WebSocket, Redis*

- Built a real-time messaging backend supporting one-to-one and group chat using Django Channels and WebSockets.
- Implemented Redis as a channel layer for scalable, low-latency message broadcasting.
- Designed REST endpoints for authentication, conversation history, and message management.

Blog Application – Backend — *Django REST Framework, PostgreSQL, JWT*

- Developed a full-featured blog API with CRUD for posts, categories, tags, and comments.
- Implemented JWT authentication and role-based permissions (admin, author, reader).
- Documented all endpoints with OpenAPI/Swagger for easy frontend integration.

SKILLS

WordPress: Elementor, Divi Theme Builder, custom themes, custom post types, plugin configuration, WooCommerce, WPForms, Yoast SEO, site speed optimization

LearnDash LMS: Course & lesson setup, quizzes, drip content, certificates, student groups, WooCommerce integration, membership access control

Wix: Store builder, Wix Editor, Wix Payments, product & order management, mobile optimization

Backend Development: Python, Django, Django REST Framework (DRF), PHP, RESTful API design, JWT authentication

Databases: PostgreSQL, MySQL, SQLite

Frontend: HTML5, CSS3, JavaScript (basics)

Tools & Workflow: Git, GitHub, Postman, Linux, Jira, Confluence, Figma (basic)

Soft Skills: Client communication, attention to detail, on-time delivery, problem solving, self-managed remote work

HONOURS & AWARDS

Top Scorer & Gold Medalist – Bahir Dar Institute of Technology, Class of 2021
Graduated with the highest academic honors; set a benchmark of excellence across the institute.

LANGUAGES

Amharic: Native **English:** C2 Listening / C1 Reading, Writing & Speaking (Proficient)
